

Kai'li WHITE

DEEP POWER FOR THE MODERN GOLFER

NEW Kai'li™ White Profile Available Early 2022

First Mitsubishi Chemical Low-Launch w/ Taper Butt

Super Low Resin Content Prepreg in Torque Core

KAI'LI™ WHITE

The new Kai'li™ White derives its name from a blend of words that evoke the power of the ocean – the perfect moniker for an unprecedented shaft that explores new depths of strength and performance. A taper butt design – the first in a whiteboard profile – creates a feeling of smooth power in the hands. Designed to keep torque low for stable flight and tight dispersion, Kai'li shafts feature Super Low Resin Content prepreg in the torque core for maximum feel, and are fortified with Mitsubishi Chemical's flagship MR70 material to retain stability. A powerful combination that proves you don't have to sacrifice flight for feel.

Player Profile: Kai'li™ White is designed for the fast swinging modern golfer seeking a responsive low-launch driver.

KAI'LI™ WHITE FEATURES

✓ INCREDIBLE RESPONSIVENESS IN LOW PROFILE ✓ MR70 CARBON FIBER ✓ SUPER LOW RESIN CONTENT PREPREG
