

C6™ ONYX

A Premium Shaft - Built for the Aftermarket

NEW C6™ ONYX Available Exclusively at Authorized Dealers

High Balance Point for Greater Versatility

All New Modern, Stealth C6™ Cosmetic Design

C6™ ONYX

It's not just about flex, of course, it's also about optimizing shaft frequency, launch and spin, weight, torque, and profile to help individual players of all types hit it as long, straight and consistently as possible. So, we've given our premier authorized club builders and fitters an exclusive line of high-performance golf shafts that can be fine-tuned to a golfer's specific performance needs. Offered exclusively throughout our Premier Dealer/Fitter Network.

"Nothing matters more to us than seeing golfers improve their game by using our shafts. That's why the introduction of the C6™ ONYX is so important to us: it's a premium part, designed to extend an already proven and popular shaft option to consumers in shops of our best fitters."

— Jonathan Alongi, Aftermarket Sales Manager
