DIAMANA™ RB

MID+ LAUNCH RED BOARD RETURNS

NEW 6th Generation "Red Board" Mid+ Launch Profile

Retro Cosmetic with State-of-the-Art Materials

Xlink Tech™ Resin System for Performance + Feel

DIAMANA™ RB

Diamana™ RB (Red Board) – the third profile in the most recent generation – is designed with all the traditional branding that made Diamana so beloved – including a return to the original 53/63/73/83 weight class designations – and all the engineering prowess and material innovation that made the brand dominant on tour.

Offering a **slightly higher launch angle** than BB, Diamana™ RB was engineered to promote ease of launch while also maintaining control down field. Diamana RB is a classic "Red Board" profile — not available since the 2nd Generation of Diamana — that features an active tip section while still retaining the same material technology package and low-torque control characteristics as its lower launching counterparts.

KEY SHAFT FEATURES

- ✓ HIGHEST LAUNCHING PROFILE IN SERIES + LOW TORQUE
- ✓ MR70 FIBER + XLINK TECH™ RESIN SYSTEM
