DIAMANA™ WB

Diamana™ WB (White Board) – the first part of the 6th generation – is designed with all the traditional branding that made Diamana™ so beloved, including flowers, the surfboard behind the Diamana™ logo, and a return to the original 53/63/73/83 weight class designations. But rest assured, the only thing throwback about Diamana™ WB is its appearance.

Built on a robust technology package designed to deliver Diamana's iconic feel, the super high-modulus 80-ton Dialead pitch fiber in the butt section delivers maximum stability and increased energy transfer while high-modulus 46-ton fiber in the shaft's angle plies reduces torque (without increasing weight) for improved control and stability.

KEY SHAFT FEATURES

- ✓ BUILT ON DIAMANA'S MOST ICONIC LOW LAUNCH PROFILE
- ✓ MR70 FIBER + XLINK TECH™ RESIN SYSTEM

DIAMANA™ WB SPECS

| PRODUCT | FLEX | LENGTH (IN) | WEIGHT (G) | TIP O.D. (IN) | TIP LENGTH (IN) | BUTT O.D. (IN) | TORQUE (°) | KICK PT. |
