

Kai'li DEEP WAVES **RED**

HIGH LAUNCH. FULL STABILITY. DEEP POWER.

NEW Kai'li™ Dark Waves Red Profile Available JAN 2025

Softer Tip Flex, Higher Balance Point Than Blue Profile

Torque Comparable to Original Mid-Launch Blue Profile

KAI'LI™ DARK WAVES RED

The new Kai'li™ Dark Waves Red derives its name from a blend of words that evoke the power of the ocean – the perfect moniker for an unprecedented shaft that explores new depths of strength and performance. The, Kai'li Dark Waves Red is a high spinning, mid launching shaft that manages to retain super low torque performance comparable to its White and Blue siblings. Built with MR70 for strength and Super Low Resin Content prepreg for feel, and now Xlink Resin in the tip-section for enhanced durability, Kai'li Red creates different launch and spin characteristics than its siblings through the use of a softer tip flex and a slightly higher balance point.

Player Profile: Anyone looking for more launch with retaining super low torque should give Kai'li™ Red a look.

KAI'LI™ DARK WAVES RED FEATURES

- ✓ HIGH-LAUNCH, LOW-TORQUE
- ✓ MR70 CARBON FIBER
- ✓ SUPER LOW RESIN CONTENT PREPREG
