

TENSEI™ 1K PRO BLUE

INNOVATION IN A MID LAUNCH PROFILE

NEW First Mid-Launch TENSEI 1K Pro Profile

Exclusive 1K Carbon Fiber + Boron + MR70

State-of-the-Art Xlink Tech™ Resin System

TENSEI™ 1K PRO BLUE

A whole new blue. The mid-launching, mid-spinning TENSEI™ 1K Pro Blue – built on the lessons learned from CK Blue and AV Blue – is the next step forward in our lineage of TENSEI Blue products.

TENSEI™ 1K Pro Blue incorporates super-premium 1K Carbon Fiber into the shaft's material composition and uses our proprietary Xlink Tech Resin System to strengthen the shaft while improving feel. Built with a firmer handle section than its 1K Pro siblings, the new blue creates stability and feel in the butt section. This firm feeling in the hands enables more activity in the tip section to help the golfer increase ball speed. Everything to do with TENSEI™ 1K Pro Blue is designed to enhance the stiffness profile of the shaft to control curvature during the swing to improve club head speed.

KEY SHAFT FEATURES

✓ EXCLUSIVE 1K CARBON FIBER ✓ BORON IN TIP SECTION ✓ XLINK TECH™ RESIN SYSTEM
