

TENSEI™ 1K PRO RED

HIGHER LAUNCH + MID SPIN PROFILE

NEW Super-Stiff Handle and Softer Tip Section

Exclusive 1K Carbon Fiber + Boron + MR70

State-of-the-Art Xlink Tech™ Resin System

TENSEI™ 1K PRO RED

The release of TENSEI™ 1K Pro Red – a high-launching, mid-spinning profile – finishes the 1K Pro family. Fitters everywhere now have the full breadth of launch and spin conditions in the 1K Pro line to fit any golfer that walks into his or her studio.

Built with super-premium 1K carbon fiber in the handle for exceptional feel and stability, TENSEI™ 1K Pro Red uses a super-stiff handle section, softer tip section and lower kick point to produce high flight. 1K Pro Red also uses our proprietary Xlink Tech™ Resin System to drive carbon fiber volume way, way up for supreme feel without harming the shaft's strength or durability. A full-length application of aerospace-grade MR70 material is used for strength and the design is capped off with super-premium, ultra-strong boron in the tip section.

KEY SHAFT FEATURES

- ✓ EXCLUSIVE 1K CARBON FIBER
- ✓ BORON IN TIP SECTION
- ✓ XLINK TECH™ RESIN SYSTEM
