

TENSEI™ 1K PRO WHITE

Pure Perfection in a Super-Premium Shaft

NEW TENSEI™ 1K Series Built for Custom Fitting

Exclusive 1K Carbon Fiber + Tighter Weave

State of the Art XLINK Resin System + Boron Tip

TENSEI™ 1K PRO WHITE

Created using extraordinary 1K Fiber that is 3x thinner than Carbon Kevlar for a tighter, more consistent weave, this super premium fiber produces an amazing "1K feel" by transmitting more of the high frequency vibrations needed to feel the true quality of impact. Our breakthrough, dual-phase Xlink Tech™ Resin System is used through the full length of the shaft for a carbon-rich structure that maximizes feel while increasing the overall strength of the shaft. Golfers can expect maximum control and reduced torque from TENSEI™ 1K Pro White through the use of 46-ton carbon fiber. Boron is used in the tip to cap off this exceptional design. Available from 50R to 80TX, TENSEI™ 1K Pro White gives a wide range of players the opportunity to play the best TENSEI™ we've ever made.

KEY SHAFT FEATURES

- ✓ EXCLUSIVE 1K CARBON FIBER
- ✓ SMALLER DIAMETER, TIGHTER WEAVE
- ✓ XLINK RESIN SYSTEM
