# VANQUISH™ VV (GREEN)

Made in Japan. VANQUISH™ VV (Green) is a next-generation, ultra-premium lightweight shaft engineered to help golfers generate more clubhead speed without sacrificing consistency. Built off the legendary VANQUISH™ profile, the VANQUISH™ VV (Green) is a complimenting line that leverages the six key technologies promoting repeatable performance and speed while incorporating a mid kick point and increased feedback in the handle:

- 1. **Amorphous Wire Technology** in the butt section increases handle activity for greater clubhead acceleration.
- 2. **Super Low Resin Content Prepreg** enhances carbon density for exceptional feel by reducing unnecessary resin.
- 3. **Proprietary 46 and 40 Ton Carbon Prepregs**, applied along the full length of the shaft, deliver increased strength and lower torque.
- 4. **Reinforced Tip Section** with uniquely angled outer layers improves tip stability for enhanced control.
- 5. **Consistent Feel Design** minimizes variation across different weights and flexes, making fitting easier and more intuitive.
- 6. **Precision Crafted Design** ensures industry-leading tolerances in weight and frequency for unmatched quality and consistency.

## VANQUISH™ VV (GREEN) SPECS

PRODUCT	FLEX	LENGTH (IN)	WEIGHT (G)	TIP O.D. (IN)	TIP LENGTH (IN)	BUTT O.D. (IN)	TORQUE (°)	KICK PT.
