

VANQUISH™

New Ultra-Premium Lightweight Brand

NEW Amorphous Wire Technology to Maximize Ball Speed

Super Low Resin Content Prepreg + High Modulus Carbon

Consistent Feel Design for Custom Fitting Clarity

VANQUISH™ Series

VANQUISH™ is a brand-new ultra-premium lightweight brand designed to help golfers unlock more club head speed while still providing unparalleled consistency swing-to-swing. VANQUISH™ features six core technological tenets to deliver more consistency swing-to-swing and help you shoot lower scores: 1) a new Amorphous Wire Technology used in the butt section to increase activity in the handle for more clubhead acceleration, 2) a Super Low Resin Content Prepreg to drive resin content lower and increase carbon density for the best possible feel, 3) proprietary, exotic 46 and 40 Ton prepregs used in full length applications for added strength and lower torque, 4) a uniquely fortified tip section with outer layer material angled differently for tip stability, 5) Consistent Feel Design to reduce the variables between weights and flexes to allow for ease of fitting, and 6) our Precision Crafted Design to ensure VANQUISH™ keeps the tightest possible tolerances in weight and frequency.

VANQUISH™ SPECS

PRODUCT	FLEX	LENGTH (IN)	WEIGHT (G)	TIP O.D. (IN)	TIP LENGTH (IN)	BUTT O.D. (IN)	TORQUE (°)
